*Board of Retirement
San Diego County Employees Retirement Association
2275 Rio Bonito Way, Suite 200
San Diego, CA 92108-1685*

Dear Board Members:

We are pleased to submit this Actuarial Valuation and Review as of June 30, 2007. It summarizes the actuarial data used in the valuation, establishes the funding requirements for fiscal 2008-2009 and analyzes the preceding year's experience.

The census information on which our calculations were based was prepared by SDCERA and the financial information was provided by the Retirement Association. That assistance is gratefully acknowledged. The actuarial calculations were completed under the supervision of Andy Yeung, ASA, MAAA, Enrolled Actuary.

This actuarial valuation has been completed in accordance with generally accepted actuarial principles and practices. To the best of our knowledge, the information supplied in this actuarial valuation is complete and accurate. Further, in our opinion, the assumptions as approved by the Board of Retirement are reasonably related to the experience of and the expectations for the Plan.

We look forward to reviewing this report at your next meeting and to answering any questions.

Sincerely,

THE SEGAL COMPANY

SECTION 1: Valuation Summary for the San Diego County Employees Retirement Association

Purpose

This report has been prepared by The Segal Company to present a valuation of the San Diego County Employees Retirement Association as of June 30, 2007. The valuation was performed to determine whether the assets and contributions are sufficient to provide the prescribed benefits. The contribution requirements presented in this report are based on:

- The benefit provisions of the Retirement Association, as administered by the Board of Retirement;
- The characteristics of covered active members, inactive vested members, retired members and beneficiaries as of June 30, 2007, provided by the Retirement Association;
- The assets of the Plan as of June 30, 2007, provided by the Retirement Association;
- Economic assumptions regarding future salary increases and investment earnings; and
- Other actuarial assumptions, regarding employee terminations, retirement, death, etc.

San Diego County Employees Retirement Association's basic financial goal is to establish contributions that fully fund the Association's liabilities, and that, as a percentage of payroll, remain as level as possible for each generation of active members. Annual actuarial valuations measure the progress toward this goal, as well as test the adequacy of the contribution rates.

In preparing this valuation, we have employed generally accepted actuarial methods and assumptions to evaluate the Association's assets, liabilities and future contribution requirements. Our calculations are based upon member data and financial information provided to us by the Association's staff. This information has not been audited by us, but it has been reviewed and found to be reasonably consistent, both internally and with prior year's information.

The contribution requirements are determined as a percentage of payroll. The Association's employer rates provide for both normal cost and a contribution to amortize any unfunded or overfunded actuarial accrued liabilities. Effective with the June 30, 2004 valuation, we have modified our calculations to reflect the Board's new funding policy to amortize the Association's unfunded actuarial accrued liability as 20-year fixed (i.e., decreasing) layered amortization periods.

The rates calculated in this report may be adopted by the Board for the fiscal year that extends from July 1, 2008 through June 30, 2009.

SECTION 1: Valuation Summary for the San Diego County Employees Retirement Association

Significant Issues in This Valuation

The following key findings were the result of this actuarial valuation:

- The ratio of the valuation value of assets to actuarial accrued liabilities increased from 83.6% to 89.7%. The Association's unfunded actuarial accrued liability has decreased from \$1,232.3 million as of June 30, 2006 to \$832.1 million as of June 30, 2007. A complete reconciliation of the Association's unfunded actuarial accrued liability is provided in Section 3, Exhibit H.
- Even though there is an increase in the employer's average Normal Cost rate, the total employer contribution rate calculated in this valuation has decreased from 23.27% of payroll to 20.58% of payroll as a result of a reduction in the Unfunded Actuarial Accrued Liability component of the rate. This decrease was a result of favorable actuarial experience primarily due to higher than expected returns on the valuation value of assets after "smoothing" and data corrections made by SDCERA for certain retirees: (1) who are currently single but were previously reported with a spouse or domestic partner who would be entitled to a continuance benefit and (2) who have elected the Social Security Temporary Supplement benefit but were not previously reported with the lower benefit amount payable after age 62.

Those decreases in employer contribution rates were offset to some degree by the inclusion of new actuarial assumptions adopted by the Board as a result of the June 30, 2006 triennial experience study, as well as a new assumption we are recommending to the Board to recognize pay for performance that are included as final compensations for active members. A complete reconciliation of the Association's aggregate employer rate is provided in Section 2, Subsection D (see Chart 15).

- The Board has made permanent the STAR COLA benefit for retirees receiving such benefit as of April 1, 2007. This valuation includes both the liability for such benefits and the transfer made by the Board from excess earnings to offset that liability.
- The individual member rates are changing as a result of the June 30, 2006 triennial experience study. The average member rate calculated in this valuation has increased from 10.23% of payroll to 10.38% of payroll. A complete reconciliation of the Association's average member rate is provided in Section 2, Subsection D (see Chart 16).
- As indicated in Section 2, Subsection B (see Chart 7) of this report, the total unrecognized investment gain as of June 30, 2007 was \$905.2 million (versus an unrecognized gain of \$722.8 million in the June 30, 2006 valuation). This investment gain will be recognized in the determination of the actuarial value of assets for funding purposes over the next few years, to the extent it is not offset by recognition of investment losses derived from future experience. This implies that earning the assumed rate of investment return of 8.25% per year (net of expenses) on a **market value** basis will result in

SECTION 1: Valuation Summary for the San Diego County Employees Retirement Association

investment gains on the actuarial value of assets in the next few years. Therefore, if the actual market return is equal to the assumed 8.25% rate and all other actuarial assumptions are met, the contribution requirements would decrease in each of the next few years, as those gains are recognized, they are used by the Board to increase the return on the valuation value of assets.

Impact of Future Experience on Contribution Rates

Future contribution requirements may differ from those determined in the valuation because of:

- difference between actual experience and anticipated experience;
- changes in actuarial assumptions or methods;
- changes in statutory provisions; and
- difference between the contribution rates determined by the valuation and those adopted by the Board.

Return on market value of assets	15.12%	14.98%	N/A
Actuarial value of assets	\$7,539,284	\$6,608,148	14.1%
Return on actuarial value of assets	14.02%	10.79%	N/A
Valuation value of assets	\$7,250,404	\$6,263,019	15.8%
Return on valuation value of assets	13.78%	10.43%	N/A

⁽¹⁾ Monthly benefits for STAR COLA are included for June 30, 2007 and excluded for June 30, 2006.

⁽²⁾ Includes members who choose to leave their contributions on deposit even though they have less than five years of service.

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

A. MEMBER DATA

The Actuarial Valuation and Review considers the number and demographic characteristics of covered members, including active members, vested terminated members, retired members and beneficiaries.

This section presents a summary of significant statistical data on these member groups.

More detailed information for this valuation year and the preceding valuation can be found in Section 3, Exhibits A, B, and C.

A historical perspective of how the member population has changed over the past ten valuations can be seen in this chart.

CHART 1
Member Population: 1998 – 2007

Year Ended June 30	Active Members	Vested Terminated Members	Retired Members and Beneficiaries	Ratio of Non-Actives to Actives
1998	16,443	2,271	7,955	0.62
1999	16,579	2,653	8,292	0.66
2000	16,669	3,081	8,703	0.71
2001	17,346	3,290	8,921	0.70
2002	18,276	3,323	9,657	0.71
2003	18,466	3,910	10,253	0.77
2004	17,717	4,280	10,770	0.85
2005	16,980	4,673	11,436	0.95
2006	17,451	4,687	12,049	0.96
2007	17,733	4,908	12,504	0.98

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

Active Members

Plan costs are affected by the age, years of service and compensation of active members. In this year's valuation, there were 17,733 active members with an average age of 44.6, average years of service of 10.2 years and average projected compensation of \$59,911. The 17,451 active members in the prior valuation had an average age of 44.5, average service of 10.3 years and average projected compensation of \$56,121.

Among the active members, there were none with unknown age.

Inactive Members

In this year's valuation, there were 4,908 members with a vested right to a deferred or immediate vested benefit or entitled to a return of their member contributions versus 4,687 in the prior valuation.

These graphs show a distribution of active members by age and by years of service.

CHART 2
Distribution of Active Members by Age as of June 30, 2007

CHART 3
Distribution of Active Members by Years of Service as of June 30, 2007

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

Retired Members and Beneficiaries

As of June 30, 2007, 11,228 retired members and 1,276 beneficiaries were receiving total monthly benefits of \$28,223,347, including benefits for STAR COLA. For comparison, in the previous valuation, there were 10,809 retired members and 1,240 beneficiaries receiving monthly benefits of \$24,981,789, excluding benefits for STAR COLA.

These graphs show a distribution of the current retired members based on their monthly amount and age, by type of pension.

CHART 4
Distribution of Retired Members by Type and by Monthly Amount as of June 30, 2007

CHART 5
Distribution of Retired Members by Type and by Age as of June 30, 2007

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

B. FINANCIAL INFORMATION

Retirement plan funding anticipates that, over the long term, both contributions and net investment earnings (less investment fees and administrative expenses) will be needed to cover benefit payments.

Retirement plan assets change as a result of the net impact of these income and expense components. The adjustment toward market value shown in the chart is the “non-cash” earnings on investments implicitly included in the actuarial value of assets. Additional financial information, including a summary of these transactions for the valuation year, is presented in Section 3, Exhibits D, E and F.

The chart depicts the components of changes in the actuarial value of assets over the last five years. Note: The first bar represents increases in assets during each year while the second bar details the decreases. The net contributions in 2003-2004 include \$450 million from issuance of Pension Obligation Bonds.

- Adjustment toward market value
- Benefits paid
- Net interest and dividends
- Net contributions

CHART 6
Comparison of Increases and Decreases in the Actuarial Value of Assets for Years Ended June 30, 2003 – 2007

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

It is desirable to have level and predictable plan costs from one year to the next. For this reason, the Board of Retirement has approved an asset valuation method that gradually adjusts to market value. Under this method, the full value of market fluctuations is not recognized in a single year and, as a result, the asset value and the plan costs are more stable.

The amount of the adjustment to recognize market value is treated as income, which may be positive or negative. Realized and unrealized gains and losses are treated equally and, therefore, the sale of assets has no immediate effect on the actuarial value.

The determination of the actuarial and valuation value of assets is provided on the following page.

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

The chart shows the determination of the actuarial and valuation value of assets as of the valuation date.

CHART 7

Determination of Actuarial and Valuation Value of Assets for Year Ended June 30, 2007

Six Month Period		Total Actual Market Return (net)	Expected Market Return (net)	Investment Gain (Loss)	Deferred Factor	Deferred Return

CHART 8

Allocation of Valuation Value of Assets as of June 30, 2007

The allocation of the valuation reserves between General and Safety is provided below:

	General	Safety	Total
1 Beginning of Year Asset Allocation	\$4,590,442,330	\$1,672,577,130	\$6,263,019,460
2 Estimated Percentage of Total Employee Contributions Including Pickups	79.36%	20.64%	100.0%
3 Employee Contributions, Allocated in Proportion to (2)	\$35,318,035	\$9,185,537	\$44,503,572
4 Employer Contributions Including Pickups, Allocated in Proportion to Employer rate	\$231,617,310	\$88,915,917	\$320,533,227
5 Annual Allowances for Retired Members (From Last Year's Valuation Report)	\$230,189,328	\$69,650,280	\$299,839,608
6 Benefit Payments Allocated in Proportion to (5)	\$239,699,639	\$72,527,893	\$312,227,532
6.1 Refunds, Allocated in Proportion to (2)	\$2,042,784	\$531,289	\$2,574,073
6.2 Present value of STAR COLA Benefit	\$49,040,281	\$21,499,572	\$70,539,853
7 Subtotal = (1) + (3) + (4) – (6) – (6.1) + (6.2)	\$4,664,675,533	\$1,719,118,974	\$6,383,794,507
8 Total Valuation Value of Assets			\$7,250,404,469
9 Residual to Allocate			\$866,609,962
10 Allocate Residual in Proportion to (7)	\$633,236,906	\$233,373,056	\$866,609,962
11 End of Year Asset Allocation = (7) + (10)	\$5,297,912,439	\$1,952,492,030	\$7,250,404,469

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

The market value, actuarial value, and valuation value of assets are representations of the SDCERA's financial status. As investment gains and losses are gradually taken into account, the actuarial value of assets tracks the market value of assets, but with less volatility. The valuation value of assets is the actuarial value, excluding any non-valuation reserves. The valuation asset value is significant because the SDCERA's liabilities are compared to these assets to determine what portion, if any, remains unfunded. Amortization of the unfunded actuarial accrued liability is an important element in determining the contribution requirement.

This chart shows the change in market value, actuarial value and valuation value over the past five years.

CHART 9

Market Value, Actuarial Value and Valuation Value of Assets as of June 30, 2003 –2007

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

C. ACTUARIAL EXPERIENCE

To calculate the required contribution, assumptions are made about future events that affect the amount and timing of benefits to be paid and assets to be accumulated. Each year actual experience is measured against the assumptions. If overall experience is more favorable than anticipated (an actuarial gain), the contribution requirement will decrease from the previous year. On the other hand, the contribution requirement will increase if overall actuarial experience is less favorable than expected (an actuarial loss).

Taking account of experience gains or losses in one year without making a change in assumptions reflects the belief that the single year's experience was a short-term development and that, over the long term, experience will return to the original assumptions. For contribution requirements to remain stable, assumptions should approximate experience.

If assumptions are changed, the contribution requirement is adjusted to take into account a change in experience anticipated for all future years.

The total experience gain was \$517.9 million, a gain of \$347.9 million from investments and a gain of \$170.0 million from all other sources. The gain from all other sources was 2.1% of the actuarial accrued liability. A discussion of the major components of the actuarial experience is on the following pages.

This chart provides a summary of the actuarial experience during the past year.

CHART 10
Actuarial Experience for Year Ended June 30, 2007

1. Net gain from investments on valuation value of assets ⁽¹⁾	\$347,898,000
2. Net gain from other experience ⁽²⁾	<u>170,023,000</u>
3. Net experience gain: (1) + (2)	\$517,921,000

⁽¹⁾ Details in Chart 11

⁽²⁾ See Section 3, Exhibit H.

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

Investment Rate of Return

A major component of projected asset growth is the assumed rate of return. The assumed return should represent the expected long-term rate of return, based on the SDCERA’s investment policy. For valuation purposes, the assumed rate of return on the valuation value of assets was 8.25% (based on June 30, 2006 valuation). The actual rate of return on a valuation basis for the 2006/2007 plan year was 13.78%.

Since the actual return for the year was greater than the assumed return, the SDCERA experienced an actuarial gain during the year ended June 30, 2007 with regard to its investments.

CHART 11

Investment Experience for Year Ended June 30, 2007 – Valuation Value and Actuarial Value of Assets

This chart shows the gain/(loss) due to investment experience.

	Valuation Value	Actuarial Value
1. Actual return	\$ 866,669,000	\$ 926,575,000
2. Average value of assets	6,288,137,000	6,610,429,000
3. Actual rate of return: (1) ÷ (2)	13.78%	14.02%
4. Assumed rate of return	8.25%	8.25%
5. Expected return: (2) x (4)	518,771,000	545,360,000
6. Actuarial gain/(loss): (1) – (5)	<u>\$347,898,000</u>	<u>\$381,215,000</u>

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

Because actuarial planning is long term, it is useful to see how the assumed investment rate of return has followed actual experience over time. The chart below shows the rate of return on an actuarial, valuation and market basis for the last five years.

Based upon this experience, future expectations and discussions with the Board, we have maintained the assumed rate of return at 8.25%.

CHART 12

Investment Return – Actuarial Value, Valuation Value and Market Value: 2003 – 2007 (Dollar amount in thousands)

Year Ended June 30	Valuation Value Investment Return		Actuarial Value Investment Return		Market Value Investment Return

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

Subsection B described the actuarial asset valuation method that gradually takes into account fluctuations in the market value rate of return. The effect of this is to stabilize the actuarial rate of return, which contributes to leveling pension plan costs.

This chart illustrates how this leveling effect has actually worked over the years 2003 - 2007.

CHART 13
Market, Actuarial and Valuation Rates of Return for Years Ended June 30, 2003 - 2007

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

Other Experience

There are other differences between the expected and the actual experience that appear when the new valuation is compared with the projections from the previous valuation.

These include:

- the extent of turnover among the participants,
- retirement experience (earlier or later than expected),
- mortality (more or fewer deaths than expected),

- the number of disability retirements,
- salary increases different than assumed, and
- data adjustments for retiree benefits and active pay for performance.

The net gain from this other experience for the year ended June 30, 2007 amounted to \$170.0 million, which was 2.1% of the actuarial accrued liability. See Exhibit H for a detailed development of the Unfunded Actuarial Accrued Liability.

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

D. EMPLOYER AND MEMBER CONTRIBUTIONS

Employer contributions consist of two components:

Normal Cost

The annual contribution rate that, if paid annually from a member's first year of membership through the year of retirement, would accumulate to the amount necessary to fully fund the member's retirement-related benefits. Accumulation includes annual crediting of interest at the assumed investment earning rate. The contribution rate is expressed as a level percentage of the member's compensation.

Contribution to the Unfunded

Actuarial Accrued Liability (UAAL)

The annual contribution rate that, if paid annually over the UAAL amortization period, would accumulate to the amount necessary to fully fund the UAAL. Accumulation includes annual crediting of interest at the assumed investment earning rate. The contribution (or rate credit in the case of a negative unfunded actuarial accrued liability) is calculated to remain as a level percentage of future active member payroll (including payroll for new members as they enter the Association) assuming a constant number of active members. In order to remain as a level percentage of payroll, amortization payments (credits) are scheduled to increase at the combined annual inflation and across the board salary increase rate of 4.25%. Effective with the June 30, 2004 actuarial valuation, the Association's UAAL will be amortized over 20-year fixed layered amortization periods.

The recommended employer contributions are provided on Charts 14a and 14b.

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

Member Contributions

Articles 6 and 6.8 of the 1937 Act define the methodology to be used in the calculation of member basic contribution rates for General members and Safety members, respectively. The basic contribution rate is determined so that the accumulation of a member's basic contributions made in a given year until a certain age will be sufficient to fund an annuity at that age that is equal to 1/100 of Final Average Compensation for General and Safety members. That age is 60 for General Tier 1 members, 55 for General Tier A members and 50 for Safety members. It is assumed that contributions are made annually at the same rate, starting at entry age. In addition to their basic contributions, members pay one-half of the total normal cost necessary to fund their cost-of-living benefits. Accumulation includes semi-annual crediting of interest at half of the assumed investment earning rate. The member contribution rates are provided in Appendix A. Please note that the member rates provided in the report are the full rate before reflecting any employer pickup.

Non Service and Service Connected Death	0.08%	0.11%	0.08%
Total Employer Unfunded Actuarial Accrued Liability	6.18%	8.89%	6.76%

***Assuming that the liability for all inactive members is fully funded.*

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

The contribution rates as of June 30, 2007 are based on all of the data described in the previous sections, the actuarial assumptions described in Section 4, and the Plan provisions adopted at the time of preparation of the Actuarial Valuation. They include all changes affecting future costs, adopted benefit changes, actuarial gains and losses and changes in the actuarial assumptions.

Reconciliation of Recommended Contribution

The chart below details the changes in the recommended contribution from the prior valuation to the current year's valuation.

The chart reconciles the contribution from the prior valuation to the amount determined in this valuation.

CHART 15

Reconciliation of Recommended Contribution from June 30, 2006 to June 30, 2007 (Dollar Amounts in Thousands)

	<u>Contribution Rate</u>	<u>Estimated Annual Dollar Cost⁽¹⁾</u>
Recommended Average Employer Contribution Rate as of June 30, 2006, Before Reflecting Any Employer Pickups	23.27%	\$247,226
Effect of investment gain ⁽²⁾	-2.45%	-\$26,029
Effect of difference in actual versus expected total and individual salary increases	0.14%	\$1,487
Effect of assumption change recommended in June 30, 2006 experience study	0.69%	\$7,331
Effect of one-year delay in implementation of contribution rates calculated in June 30, 2006 valuation	-0.10%	-\$1,062
Effect of additional employer contribution for the year ending June 30, 2007	-0.19%	-\$2,019
Effect of change in data for retirees ⁽³⁾	-1.19%	-\$12,642
Effect of recognition of pay for performance for actives	0.70%	\$7,436
Effect of unexplained rate difference ⁽⁴⁾	-0.29%	-\$3,085
Subtotal	-2.69%	-\$28,583
Recommended Average Employer Contribution Rate as of June 30, 2007, Before Reflecting Any Employer Pickups	20.58%	\$218,643

(1) Based on June 30, 2007 projected annual payroll of \$1,062,396,028.

(2) Return on valuation assets was 13.78% and greater than the 8.25% assumed in the valuation.

(3) Continuance data and Social Security Temporary Supplement benefits.

(4) Other differences in actual versus expected actuarial experience.

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

The member contribution rates as of June 30, 2007 have been recalculated based on the new actuarial assumptions adopted by the Board for the June 30, 2006 experience study.

Reconciliation of Recommended Contribution Rate
 The chart below details the changes in the aggregate member contribution rate from the prior valuation to the current year’s valuation.

The chart reconciles the member contribution from the prior valuation to the amount determined in this valuation.

CHART 16
Reconciliation of Recommended Member Contribution from June 30, 2006 to June 30, 2007 (Dollar Amounts in Thousands)

	<u>Contribution</u> Rate	<u>Estimated Annual</u> Dollar Cost ⁽¹⁾
Recommended Average Member Contribution Rate as of June 30, 2006, Before Reflecting Any Employer Pickups	10.23%	\$108,604
Effect of changes in assumptions	0.15%	\$1,736
Recommended Average Member Contribution Rate as of June 30, 2007, Before Reflecting Any Employer Pickups	10.38%	\$110,340

(1) Based on June 30, 2007 projected annual payroll of \$1,062,396,028.

SECTION 2: Valuation Results for the San Diego County Employees Retirement Association

E. INFORMATION REQUIRED BY GASB

Governmental Accounting Standards Board (GASB) reporting information provides standardized information for comparative purposes of governmental pension plans. This information allows a reader of the financial statements to compare the funding status of one governmental plan to another on relatively equal terms.

Critical information to GASB is the historical comparison of the GASB required contributions to the actual contributions. This comparison demonstrates whether a plan is being funded on an actuarially sound basis and in accordance with the GASB funding requirements. Chart 17 below presents a graphical representation of this information for the Plan.

The other critical piece of information regarding the Plan’s financial status is the funded ratio. This ratio compares the actuarial value of assets to the actuarial accrued liabilities of the plan as calculated under GASB. High ratios indicate a well-funded plan with assets sufficient to pay most benefits. Lower ratios may indicate recent changes to benefit structures, funding of the plan below actuarial requirements, poor asset performance, or a variety of other changes.

The details regarding the calculations of these values and other GASB numbers may be found in Section 4, Exhibits I, II, and III.

These graphs show key GASB factors.

EXHIBIT F

Actuarial Balance Sheet

An overview of the Plan’s funding is given by an Actuarial Balance Sheet. In this approach, we first determine the amount and timing of all future payments that are anticipated to be made by the Plan for current participants. We then discount these payments at the valuation interest rate to the date of the valuation, thereby determining their present value. We refer to this present value as the “liability” of the Plan.

Second, we determine how this liability will be met. These actuarial “assets” include the net amount of assets already accumulated by the Plan, the present value of future member contributions, the present value of future employer normal cost contributions, and the present value of future employer amortization payments.

Actuarial Balance Sheet (Dollar Amounts in Thousands)

	General	Safety	Total
Assets			
1 Total valuation assets	\$5,297,912	\$1,952,492	\$7,250,404
2 Present value of future contributions by members	\$631,653	\$219,975	\$851,628
3 Present value of future employer contributions for:			
a Entry age normal cost	\$738,415	\$321,888	\$1,060,303
b Unfunded actuarial accrued liability	<u>\$595,397</u>	<u>\$236,716</u>	<u>\$832,113</u>
4 Total current and future assets	\$7,263,377	\$2,731,071	\$9,994,448
Liabilities			
5 Present value of benefits for retirees and beneficiaries	\$2,837,420	\$1,087,131	\$3,924,551
6 Present value of benefits for terminated vested members	\$256,276	\$43,178	\$299,454
7 Present value of benefits for active members	<u>\$4,169,681</u>	<u>\$1,600,762</u>	<u>\$5,770,443</u>
8 Total liabilities	\$7,263,377	\$2,731,071	\$9,994,448

Development of Unfunded Actuarial Accrued Liability for Year Ended June 30, 2007

		(Dollar Amounts in Thousands)
1	Unfunded Actuarial Accrued Liability as of June 30, 2006	\$1,232,275
2	Normal Cost	240,997
3	Total employer and member contributions	-365,037
4	Interest	96,546
5	Expected Unfunded Actuarial Accrued Liability ⁽¹⁾	\$1,204,781
6	Changes due to:	
	(a) Investment return	-\$347,898
	(b) Higher than expected salary increase	20,023
	(c) Assumption change recommended in June 30, 2006 experience study	42,948
	(d) Change in data for retirees ⁽²⁾	-172,517
	(e) Recognition of pay for performance for actives	102,305
	(f) Other experience	<u>-17,529</u>
	(g) Total changes	<u>-372,668</u>
7	Unfunded Actuarial Accrued Liability as of June 30, 2007	\$832,113

⁽¹⁾ Includes a net gain of \$41 million due to \$27 million in excess contributions paid by the County and a contribution gain of about \$14 million due to the one year delay between the date of rate calculation and rate implementation.

⁽²⁾ Continuation data and Social Security Temporary Supplement benefits.

Note: Net gain from other non-investment experience of \$170.0 million (as shown on page 9) is equal to: 6(b) + 6(d) + 6(f).

SECTION 3: Supplemental Information for the San Diego County Employees Retirement Association

EXHIBIT I

Section 415 Limitations

Section 415 of the Internal Revenue Code (IRC) specifies the maximum benefits that may be paid to an individual from a defined benefit plan and the maximum amounts that may be allocated each year to an individual's account in a defined contribution plan.

A qualified pension plan may not pay benefits in excess of the Section 415 limits. The ultimate penalty for non-compliance is disqualification: active participants could be taxed on their vested benefits and the IRS may seek to tax the income earned on the plan's assets.

In particular, Section 415(b) of the IRC limits the maximum annual benefit payable at the Normal Retirement Age to a dollar indexed for inflation. That limit is \$180,000 for 2007 and \$185,000 for 2008. Normal Retirement Age for these purposes is age 62. These are the limits in simplified terms. They must be adjusted based on each participant's circumstances, for such things as age at retirement, form of benefits chosen and after tax contributions.

Benefits in excess of the limits may be paid through a qualified governmental excess plan that meets the requirements of Section 415(m).

Legal Counsel's review and interpretation of the law and regulations should be sought on any questions in this regard.

Contributions rates determined in this valuation have not been reduced for the Section 415 limitations. Actual limitations will result in gains as they occur.

SECTION 3: Supplemental Information for the San Diego County Employees Retirement Association

EXHIBIT J

Definitions of Pension Terms

The following list defines certain technical terms for the convenience of the reader:

Assumptions or Actuarial

Assumptions:

The estimates on which the cost of the Plan is calculated including:

- (a) Investment return — the rate of investment yield that the Plan will earn over the long-term future;
- (b) Mortality rates — the death rates of employees and pensioners; life expectancy is based on these rates;
- (c) Retirement rates — the rate or probability of retirement at a given age; and
- (d) Turnover rates — the rates at which employees of various ages are expected to leave employment for reasons other than death, disability, or retirement.

Normal Cost:

The amount of contributions required to fund the level cost allocated to the current year of service.

Actuarial Accrued Liability

For Actives:

The equivalent of the accumulated normal costs allocated to the years before the valuation date.

Actuarial Accrued Liability

For Pensioners:

The single sum value of lifetime benefits to existing pensioners. This sum takes account of life expectancies appropriate to the ages of the pensioners and the interest that the sum is expected to earn before it is entirely paid out in benefits.

Unfunded Actuarial Accrued

Liability:

The extent to which the actuarial accrued liability of the Plan exceeds (or is exceeded by) the assets of the Plan. There are many approaches to recognizing the unfunded or overfunded actuarial accrued liability, from meeting the interest accrual only to amortizing it over a specific period of time.

SECTION 3: Supplemental Information for the San Diego County Employees Retirement Association

**Amortization of the Unfunded
(Overfunded) Actuarial
Accrued Liability:**

Payments made over a period of years equal in value to the Plan's unfunded or overfunded actuarial accrued liability.

Investment Return:

The rate of earnings of the Plan from its investments, including interest, dividends and capital gain and loss adjustments, computed as a percentage of the average value of the fund. For actuarial purposes, the investment return often reflects a smoothing of the market gains and losses to avoid significant swings in the value of assets from one year to the next.

SECTION 4: Reporting Information for the San Diego County Employees Retirement Association

EXHIBIT III

Supplementary Information Required by GASB

Valuation date	June 30, 2007
Actuarial cost method	Entry Age Normal Actuarial Cost Method
Amortization method	Level percent of payroll for total unfunded liability (assuming a 4.25% payroll increase)
Remaining amortization period	20-year fixed (decreasing or closed) layered amortization periods for all UAAL
Asset valuation method	Market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on market value (valuation value before July 1, 2004) and are recognized over a five-year period. The Actuarial Value of Assets is reduced by the value of the non-valuation reserves and designations.
Actuarial assumptions:	
Investment rate of return	8.25%
Inflation rate	3.75%
Across the board salary increase	0.50%
Projected salary increases (5+ years of service)	5.25%*
Cost of living adjustments	3.00% of retirement income
Plan membership:	
Retired members and beneficiaries receiving benefits	12,504
Terminated members entitled to, but not yet receiving benefits	4,908
Active members	<u>17,733</u>
Total	35,145

* Includes inflation at 3.75%, across the board increase of 0.50%, plus merit and longevity increases. See Exhibit IV for increases during the first 5 years of employment.

SECTION 4: Reporting Information for the San Diego County Employees Retirement Association

**EXHIBIT IV
Actuarial Assumptions and Actuarial Cost Method**

Post-Retirement Mortality Rates:

Healthy Retirement: For General – 1994 Group Annuity Mortality Table.
For Safety – 1994 Group Annuity Mortality Table set back one year.

Disabled Retirement: For General – 1994 Group Annuity Mortality Table set forward seven years.
For Safety – same as Healthy Retirement.

The following are sample rates (%).

Age	Healthy Life Mortality				Disabled Life Mortality	
	General		Safety*		General	
	Male	Female	Male	Female	Male	Female
30	0.08	0.04	0.08	0.03	0.09	0.06

69	40.0	100.0
70	100.0	100.0

SECTION 4: Report Information for the San Diego County Employees Retirement Association

Retirement Age and Benefit for Deferred Vested Members:	<u>Reciprocal and Non-reciprocal Members</u> General: Age 57; Safety: Age 53. 35% of General and 40% of Safety (including Probation) deferred vested members are assumed to be reciprocal. For reciprocals, we assume 5.25% compensation increases per annum.
Future Benefit Accruals:	1.0 year of service per year.
Unknown Data for Members:	Same as those exhibited by members with similar known characteristics. If not specified, members are assumed to be male.
Definition of Active Members:	First day of pay period following employment.
Percent Married:	80% of male members and 55% of female members are assumed to be married at retirement or pre-retirement death.
Age of Spouse:	Females (or male) spouses are 3 years younger (older) than their spouses
Net Investment Return:	8.25%; net of administration and investment expenses.
Employee Contribution Crediting Rate:	½ of the net investment return credited semi-annually.

SECTION 4: Report Information for the San Diego County Employees Retirement Association

Consumer Price Index: Increase of 3.75% per year; benefit increases due to CPI subject to 3.0% maximum.

Salary Scale:

Annual Rate of Compensation Increase

Inflation: 3.75% per year; plus “Across the Board” salary increases of 0.50% per year; plus Merit and Longevity as follows:

Years of Service	General	Safety
0	4.50%	7.50%
1	4.00	6.00
2	3.25	5.00
3	2.50	4.00
4	2.00	3.00
5+	1.00	1.00

Pay for Performance: General members are assumed to be eligible for an average annual pay for performance of 3%.

Safety members are assumed to be eligible for an average annual pay for performance of 2%.

SECTION 4: Report Information for the San Diego County Employees Retirement Association

Actuarial Value of Assets:	Market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the expected return on market value (valuation value before July 1, 2004) and are recognized over a five-year period.
Valuation Value of Assets	The actuarial value of assets reduced by the following reserves: (1) Health Benefit and 401(h); (2) Undistributed Reserve; and (3) Contingency Reserve.
Actuarial Cost Method:	Entry Age Normal Actuarial Cost Method. Entry Age is the age at the member's hire date. Actuarial Accrued Liability is calculated on an individual basis and is based on costs allocated as a level percentage of compensation. The Normal Cost is calculated on an aggregate basis by taking the Present Value of Future Normal Costs divided by the Present Value of Future Salaries to obtain a normal cost rate. This normal cost rate is then multiplied by the total of current salaries.

SECTION 4: Reporting Information for the San Diego County Employees Retirement Association

EXHIBIT V

Summary of Plan Provisions

This exhibit summarizes the major provisions of the SDCERA included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Membership Eligibility:	All permanent employees of the County of San Diego or contracting district, scheduled to work 20 or more hours weekly, are eligible to become a member of the Retirement Association subject to classification below:
<i>General Tier 1</i>	All General members hired before March 8, 2002 who made a specific and irrevocable election to opt out of Tier A. This also included those General Members in deferred status on March 8, 2002.
<i>General Tier A</i>	All General members hired or continuing employment on or after March 8, 2002 except as noted above.
<i>Safety</i>	All Safety members.
<hr/>	
Final Compensation for Benefit Determination:	
<i>General and Safety</i>	Highest consecutive 26 bi-weekly pay periods of compensation earnable (§31462.1) (FAC).
<hr/>	
Service:	Years of service. (Yrs)
<hr/>	
Service Retirement Eligibility:	
<i>General</i>	Age 50 with 10 years of service credit, or age 70 regardless of service credit, or after 30 years of service credit, regardless of age (§31672).
<i>Safety</i>	Age 50 with 10 years of service credit, or age 70 regardless of service credit, or after 20 years of service credit, regardless of age (§31663.25).

SECTION 4: Reporting Information for the San Diego County Employees Retirement Association

Benefit Formula:

	Retirement Age	Benefit Formula
<i>General Tier 1</i> (§31676.12)	50	$(1.34\% \times \text{FAC} - 1/3 \times 1.34\% \times \$350 \times 12) \times \text{Yrs}$
	55	$(1.77\% \times \text{FAC} - 1/3 \times 1.77\% \times \$350 \times 12) \times \text{Yrs}$
	60	$(2.34\% \times \text{FAC} - 1/3 \times 2.34\% \times \$350 \times 12) \times \text{Yrs}$
	62	$(2.62\% \times \text{FAC} - 1/3 \times 2.62\% \times \$350 \times 12) \times \text{Yrs}$
	65	$(2.62\% \times \text{FAC} - 1/3 \times 2.62\% \times \$350 \times 12) \times \text{Yrs}$

	Retirement Age	Benefit Formula
<i>General Tier A</i> (§31676.17)	50	$(2.00\% \times \text{FAC} - 1/3 \times 2.00\% \times \$350 \times 12) \times \text{Yrs}$
	55	$(2.50\% \times \text{FAC} - 1/3 \times 2.50\% \times \$350 \times 12) \times \text{Yrs}$
	60	$(3.00\% \times \text{FAC} - 1/3 \times 3.00\% \times \$350 \times 12) \times \text{Yrs}$
	62	$(3.00\% \times \text{FAC} - 1/3 \times 3.00\% \times \$350 \times 12) \times \text{Yrs}$
	65	$(3.00\% \times \text{FAC} - 1/3 \times 3.00\% \times \$350 \times 12) \times \text{Yrs}$

	Retirement Age	Benefit Formula
<i>Safety (Non-Integrated)</i> (§31664.1)	50	$(3.00\% \times \text{FAC} \times \text{Yrs})$
	55	$(3.00\% \times \text{FAC} \times \text{Yrs})$
	60	$(3.00\% \times \text{FAC} \times \text{Yrs})$

Maximum Benefit: 100% of Final Average Compensation (§31676.12, §31676.17, §31664.1)

SECTION 4: Reporting Information for the San Diego County Employees Retirement Association

Non Service Connected Disability:

General Members

Eligibility

Five years of service (§31720).

Benefit Formula

1.8% of FAC per year of service. If the benefit does not exceed one-third of Final Compensation, the service is projected to 62, and the total benefit cannot be more than one-third of Final Compensation (§31727.1).

Safety Members

Eligibility

Five years of service (§31720).

Benefit Formula

1.8% of FAC per year of service. If the benefit does not exceed one-third of Final Compensation, the service is projected to 55, and the total benefit cannot be more than one-third of Final Compensation (§31727.2).

Service Connected Disability:

All Members

Eligibility

No age or service requirements (§31720).

Benefit Formula

50% of the Final Compensation or 100% of Service Retirement benefit, if larger (§31727.4).

SECTION 4: Reporting Information for the San Diego County Employees Retirement Association

Pre-Retirement Death:

Non Service Connected (Not Vested) Before Eligible to Retire

Eligibility

None.

Benefit

Refund of employee contributions with interest plus one month's eligible compensation for each year of service to a maximum of six month's compensation (§31781).

OR

Non Service Connected (Vested)

Eligibility

Five years of service.

Benefit

60% of the greater of Service or Non Service Connected Disability Retirement benefit payable to surviving eligible spouse or eligible children (§31765.1, §31781.1), in lieu of above. Additionally, the spouse may choose a combined benefit of:

- A lump sum payment of up to 6 month's compensation (see above), and
- A monthly (60%) benefit reduced by actuarial equivalent of the lump sum payment (31781.3).

Service Connected Death

50% of Final compensation or 100% of Service Retirement benefit, if greater, payable to spouse or minor children (§31787). In addition, safety members are entitled to benefits under sections 31787.5 and 31787.6.

Death After Retirement:

All Members

Service or Non Service Connected Disability Retirement

Unless another option was selected at retirement, 60% of member's unmodified allowance continued to eligible spouse (§31760.1) and \$3,500 lump sum benefit payable to member's beneficiary (§31789.3). An eligible spouse is a surviving spouse who was married to the member at least one year prior to the day of retirement (31760.1), or, at least two years prior to the date of death and has attained age 55 on or prior to the date of death (§31760.2).

Service Connected Disability Retirement

Unless another option was selected at retirement, 100% of member's unmodified allowance continued to eligible spouse (§31786).

SECTION 4: Reporting Information for the San Diego County Employees Retirement Association

Withdrawal Benefits:

*Less than Five Years of SDCERA/
Reciprocal Service Credit*

Refund of accumulated employee contributions with interest or eligible for a retirement benefit at age 70 if actively working (§31628, 31629.5).

*Five or More Years of SDCERA/
Reciprocal Service Credit*

If accumulated employee contributions left on deposit, eligible for retirement benefits at any time after meeting eligibility criteria to retire (§31700).

**Post-retirement
Cost-of-Living Benefits:**

General and Safety

Future changes based on changes to the Consumer Price Index for the San Diego area to a maximum of 3% per year, excess “banked.” (§31870.1)

County Contributions:

Effective with the June 30, 2004 actuarial valuation, the amortization period for Unfunded Actuarial Accrued Liability has changed to a 20-year fixed (decreasing) layered amortization period.

Supplemental Benefit:

The Association provides a non-vested health insurance allowance for eligible retirees. This program does not provide funded benefits and is excluded from this valuation.

SECTION 4: Reporting Information for the San Diego County Employees Retirement Association

Member Contributions:

Please refer to Appendix A for the specific rates.

General Tier 1

Basic

Provide for an average annuity at age 60 equal to 1/100 of FAC. (§31621.2)

Cost-of-Living

Provide for one-half of future Cost-of-Living costs.

General Tier A

Basic

Provide for an average annuity at age 55 equal to 1/100 of FAC. (§31621.8)

Cost-of-Living

Provide for one-half of future Cost-of-Living costs.

Safety

Basic

Provide for an average annuity at age 50 equal to 1/100 of FAC. (§31639.25)

Cost-of-Living

Provide for one-half of future Cost-of-Living costs.

Other Information:

General and Safety members with 30 or more years of qualifying service credit are exempt from paying member contributions (31625.2 and 31625.3).

NOTE: *The summary of major plan provisions is designed to outline principle plan benefits as interpreted for purposes of the actuarial valuation. If the Association should find the plan summary not in accordance with the actual provisions, the Association should alert the actuary so they can both be sure the proper provisions are valued.*
